STATE OF VERMONT PUBLIC SERVICE BOARD

Docket No. 6480

Petition of Vermont Yankee Nuclear Power Corporation)
for a Certificate of Public Good to construct a Bulk-Gas)
Storage Facility in Vernon, Vermont)

CERTIFICATE OF PUBLIC GOOD ISSUED PURSUANT TO 30 V.S.A. § 248

IT IS HEREBY CERTIFIED that the Public Service Board of the State of Vermont this day found and adjudged that the construction and use by Vermont Yankee Nuclear Power Corporation ("Vermont Yankee") of a bulk-gas storage facility (and associated facilities), to supply hydrogen and oxygen to its electric-generation facility in the Town of Vernon, Vermont (the "Project") for existing purposes and to allow Vermont Yankee to introduce "Hydrogen Water Chemistry" to the station's reactor water, which, when combined with noble metals, reduces "Intergranular Stress Corrosion Cracking" ("IGSCC") in the reactor vessel and recirculation pipes, will promote the general good of the State of Vermont in accordance with 30 V.S.A. § 248, subject to the following terms and conditions:

- 1. Construction, operation and maintenance of the Project shall be accordance with the plans and evidence submitted in this proceeding.
- 2. Vermont Yankee shall file copies of all certifications, permits and other approvals required for the Project not previously filed with the Board.
 - 3. Vermont Yankee shall comply with the erosion-control plan described in its filing. DATED at Montpelier, Vermont, this 27^{th} day of June, 2001.
